ORACLE HOSPITALITY OPERA CLOUD
THE PMS DASHBOARD

☑ **All the key information you need**

Get a snapshot of all the key information you need to perform your job. Customizable to suit your specific requirements, providing instant visibility of important operational data.

☑ **Configurable tiles and settings**

Over 30 preconfigured tiles focusing on the front desk, revenue, inventory, and housekeeping, with the ability to add custom links, images, and hotel graphics. Tiles can be controlled at a chain, property, or user level for ultimate flexibility.

☑ **Interactive for deeper insights**

Select tiles offer the ability to interact and drill down to view more in-depth information and perform operational tasks such as check in or check out without the need to navigate away from the dashboard.
